Air Duct Cleaning

*Improving Your
Indoor Air Quality...*

Why should I get my air ducts cleaned?

There are two main reasons you should have your air system cleaned. First, you and your family will be breathing cleaner air. Is there anything more important than the health of your loved ones?

Secondly, having a clean air system saves money on your energy bill. A clean air system runs more efficiently, and reduces costs for heating and cooling your home.

If you can answer yes to any of the following questions, it is a good idea to have your air system examined and decontaminated:

1. Have you noticed a buildup of dust in your home lately?
2. Have you seen an increase in your energy bills?
3. Does anyone in your home have breathing problems, allergies, or respiratory illnesses?
4. Do you have pets living inside your home?

Roto-Vision® video inspection system

Antimicrobial Disinfectant Fogging

Our Air Duct Cleaning Process

- We completely remove and thoroughly clean all registers and wash them to remove cooking oils, film and other dust collecting substances.
- We meticulously clean all HVAC vent duct work with our Rotobrush air duct cleaning system technology:
- With our Rotobrush miniaturized camera we can view where and how much contaminate has collected. This also helps us see before and after the HVAC cleaning process.
- A Spinning brush makes contact with the surfaces of the air ducts and accommodates all sizes and shapes of duct work.

- As the brush spins a powerful vacuum collects debris and contaminates and scrubs them from the air using hepa filters, which remove the tiniest air borne particles. The brush is a powerful cleaner but it is gentle and wont harm your air ducts.
- The Rotobrush will be guided deep into the heating and air conditioning ducts and vents, around corners covering all surfaces.
- There is little disruption in your home since the unit is small and can be moved easily to reach all heating vents.
- We carefully replace all registers & clean furnace area.

The Advanced Rotobrush aiR+ System

Air Duct Sanitizing

Minimizes microbial growth such as mold and bacteria in your duct system. Air Duct Sanitizing is often used when people have allergies or are moving into a previously occupied home. It is also quite effective in eliminating odors from within the duct work.

Video Inspection

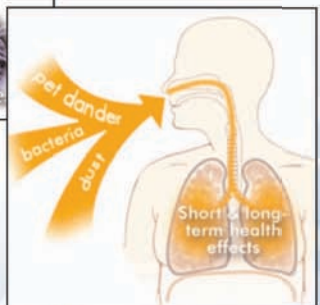

Seeing is believing! The Roto-Vision® system has revolutionized modern air duct cleaning. It lets the you see deep inside air duct systems during cleaning. You will be able to see the cleaning in action and the final results. The Roto-Vision system has an LCD screen with built-in video recording capabilities, making it quick and easy to see inside air ducts while cleaning.

Clean or Replace Registers

We remove wall, ceiling and floor registers and wash them with a special cleaner then rinse. We then seal all registers to ensure their is no air leakage that escapes around registers. Our technician also can discuss replacement options if you choose to upgrade your registers.

Indoor Air Quality Facts:

- EPA claims indoor air has been found to be up to 70% more polluted than outdoor air (EPA)
- Children are more likely than adults to be affected by polluted indoor air (Dept. of Consumer Affairs)
- The average 6 room house collects 40 pounds of dust a year (Discover Magazine)
- Air ducts have more germs than a chicken coop (American Lung Association)
- A build up of 0.42 inches of dirt on a heating or cooling coil can result in a decrease in efficiency of 21% (EPA)
- 9 out of 10 heating, ventilating, air conditioning systems failures are caused by dust and dirt (Louisiana Coop Extension Service)
- Most commercially purchased fiberglass filters are only 7% efficient in stopping dirt, dust, pollen, ect. Passing through it. (Ashrae)
- 50% of all illnesses are either caused or aggravated by polluted indoor air. (American college of allergists)

Why Choose Us:

- Fully licensed and insured
- Emergency service available
- Latest equipment used
- Free estimates available
- All work guaranteed
- Family owned & operated
- Duct decontamination
- Better business bureau
- Uniformed and professional
